[CR Code Variation - Version 2.1 CR Code \(mark up\) Dec 2019.docx](#)

Dear David,

Further to our discussion today, I have **attached** an amended version of the CR Code (in 'final' and 'mark up' versions).

This version of the CR Code includes all variations which are the subject of ARCA's variation application (dated 18 April 2019, and further minor application dated 19 November 2019).

In addition, the front page of this version of the CR Code has been amended to reflect the new Version number 2.1, repeal of the previous Version 2, and the intended commencement date of 14 February 2020. This commencement date is also included in the relevant transition period in the paragraph 6.2 variation.

Happy to discuss further if you have any additional questions or concerns.

Kind regards,
Elsa
