CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

What's about parents and grandparents who write posts about the children and put up photos of them. They don't seem too believe it could be a danger for their young one. This needs to be addressed as perpetrators use these photos and info for illegal purposes.

You banned discipline with abuse, so why not fully protect the could, as much as possible, with online restrictions.

As I am not a direct parent or guardian, I am emailing my request for sincere consideration.
