Draft Children's Online Privacy Code

Wednesday, 6 May 2026 1:13:15 PM

CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Good Afternoon,

I'm emailing as part of the submission process for the proposed code to be implemented 10th December.

I would like to raise significant privacy concerns with the proposed code. Age verification should not be required across all internet services, ultimately this is the parents responsibility to monitor.

The legislation does not include the requirement for destruction of personal information for adults subject to this process, only children.

The proposed changes are an extreme breach of personal privacy and place significant regulatory burden on businesses.

Thankyou
